

BEST PRACTICAL OPTION FOR ENVIRONMENTAL SUCCESS

Tradewaste

Tradewaste and Stormwater Monitoring

BPO has the expertise to carry out your trade waste consent application and data monitoring with thoroughness and professionalism, giving you confidence and peace of mind.

With a range of options to suit your site, BPO tradewaste services include:

- ▶ Tradewaste consent applications
- ▶ Initial data surveys to support your application
- ▶ Pre treatment options including pH adjustments and water use reduction
- ▶ Resource consent applications
- ▶ Compliance reporting
- ▶ Liasing with regulatory authorities
- ▶ Non invasive tradewaste monitoring
- ▶ Accrediate laboratory for sample analysis
- ▶ Online access to data

The BPO tradewaste monitoring can be set up to suit your consent or permit obligations, so you don't have to remember when its due. The portable sampling stations are effective and suitable for both powered and non powered sites which won't interfere with your business operations.

Talk to us.**

“ For over 20 years BPO has taken care of our trade waste requirements across our 2 businesses. BPO manages the relationship with the council and our consents, they undertake our monitoring and work with us to identify any issues or changes that are required. Working with BPO has allowed us to focus on our business, knowing they are managing our consent and tradewaste requirements.

The team at BPO are professional, responsive and most importantly so easy to deal with. ”
